ABOUT THE WEEK

Vazirning kirish so'zi

"ICT Week Uzbekistan 2024" axborot-kommunikatsiya texnologiyalari haftaligiga xush kelibsizlar! Yildan-yilga o'sib borayotgan bu yilgi AKT haftaligida sizni qutlashdan g'oyat mamnunman.

Bu yilgi ko'rgazmada xorijiy ishtirokchilar soni 2,5 barobar oshgan. Shuni alohida ta'kidlash joizki, bu yil biz nafaqat an'anaviy mahalliy va xorijiy hamkorlarimizni, balki ko'plab mamlakatlardan, xususan Saudiya Arabistoni, Qatar, BAA, Xitoy, Janubiy Koreya, Latviya, AQSh, Frantsiya, Finlyandiya va boshqa davlatlardan ko'plab yangi kompaniyalarni ko'rmoqdamiz.

O'tgan yetti yil davomida O'zbekiston Prezidenti Shavkat Mirziyoyev tomonidan iqtisodiyotning barcha tarmoqlarida amalga oshirilgan ulkan o'zgarishlar va keng qamrovli islohotlar mamlakatimizni xorijlik sarmoyadorlar va chet ellik mehmonlar uchun ochiq qilishga qaratilgan. Natijada O'zbekiston ko'plab muhim global reytinglarda yetakchilar qatoridan joy olganini ko'rish mumkin. Biz O'zbekistonda zamonaviy davlatga aylantirish bo'yicha o'ta ambitsiyali maqsadlarni belgilab oldik va 2030-yilga borib AKT eksportini kamida 5 milliard dollarga yetkazishni va mamlakatda kamida 300 ming yuqori haq to'lanadigan ish o'rinlarini yaratishni maqsad qilib qo'ydik.

Ushbu transformatsiya jarayonida barchangizni hamkorlarimiz safida ko'rishni istaymiz va sizni ushbu tadbirdan hamkorlik qilish hamda O'zbekistonda biznesingizni yo'lga qo'yish va kengaytirish uchun platforma sifatida foydalanishga taklif qilmoqchiman. Bizning asosiy niyatimiz sizning biznesingizni rivojlantirishga yordam berishdan iborat.

Shermatov Sherzod Xotamovich

O'zbekiston Respublikasi raqamli texnologiyalar vaziri,
Bosh axborot direktori (CIO)

Message from the Minister

Welcome to ICT Week Uzbekistan 2024!

It is a great honor to welcome you to this year's ICT Week, which continues to grow with each passing year. This year, we have seen a 2.5-fold increase in the number of international participants at our exhibition. Notably, we are not only welcoming our traditional local and international partners, but we are also hosting numerous new companies from around the globe, including from Saudi Arabia, Qatar, the UAE, China, South Korea, Latvia, the USA, France, Finland, and many other countries.

Over the past seven years, under the leadership of the President of Uzbekistan, H.E. Shavkat Mirziyoyev, we have undertaken extensive reforms and transformative efforts across all sectors of the economy. These initiatives aim to open Uzbekistan to foreign investment and international visitors. As a result, Uzbekistan is now ranked among the leaders in many key global indices. We have set ambitious goals to modernize Uzbekistan, aiming to reach at least \$5 billion in annual ICT exports and create a minimum of 300,000 well-paid jobs by 2030.

We invite all of you to join us as partners in this transformation. Let this event serve as a platform for collaboration and for discovering new business opportunities in Uzbekistan. Our primary message is to support the growth of your business alongside ours; together, we can create success and mutual prosperity.

Shermatov Sherzod Xotamovich

Minister of digital Technologies
of the Republic of Uzbekistan -
National Chief Information Officer (CIO)

We unite technologies and promote them to the masses

Biz texnologiyalarni birlashtiramiz va ularni ommaga tarqatamiz

Tadbir to'g'risida

ICT Week Uzbekistan bu axborot-kommunikatsiya texnologiyalari haftaligi bo'lib, an'anaviy tarzda 2004 yildan buyon o'tkazib kelinayotgan xalqaro tadbir hisoblanadi. Ushbu tadbirda doimiy ravishda jahonning yetakchi tashkilotlari mutaxassislari, rahbarlari va yetakchilari ishtirok etib keladi. ICT Week Uzbekistan forum va sammit, ko'rgazma va matbuot anjumanlarini birlashtiradigan platforma hisoblanadi.

ICT Week Uzbekistanni o'tkazishdan asosiy maqsadi tajriba almashish va zamonaviy texnologiyalar hamda innovatsiyalarni namoyish etish uchun maydoncha yaratishdir. Bu tadbir, shuningdek, O'zbekiston IT bozorining jozibadorligini xorijiy investorlar uchun ko'rsatish, davlat, biznes va iste'molchilar bilan hamkorlikni rivojlantirishda ideal platformadir. Ushbu haftalik O'zbekiston Respublikasi Raqamli texnologiyalar vazirligi tomonidan doimiy ravishda qo'llab-quvvatlanadi.

So'ngi ikki yil mobaynida ICT week Uzbekistan haftaligi IT Ta'lim Uyushmasi tomonidan tashkil etilmoqda, bu o'z o'rnida mazkur haftalikni yuqori saviyada tashkil etish imkoniyatini bermoqda. Joriy yilda ushbu tadbir o'zining unutilmas sermahsulligi va natijalari bilan ajralib turdi. Albatta ushu natijalar raqamlarda ham o'z aksini topdi, ushbu haftalikda ishtirok etish hamda markaziy Osiyoning yirik bozorini kashf etish maqsadida AQSh, Kanada, Germaniya, Fransiya, Finlyandiya, Xitoy, Koreya, Yaponiya, Qatar, BAA, Saudiya Arabistoni, Hindiston, Turkiya, Gruziya, Qozog'iston va boshqa jami 40 dan ortiq davlatlardan 1000 ortiq yirik IT kompaniyalar rahbarlari va yetakchilari tashrif buyurdi.

Muhim jihatlaridan biri shuki tashrif buyurganlarning 100 nafari o'rtacha 100 million USD, 20 nafari o'rtacha 1 milliard USD va 10 nafar o'rtacha 10 milliard USDdan yuqori bo'lgan bozor qiymatiga ega bo'lgan kompaniyalar rahbarlari hisoblanadi. ICT Week Uzbekistan 2024 doirasida tashkil etilgan forum, sammit va ICT Expo ko'rgazmalari joriy yilda 10 000 maydonda tashkil etildi. 4 kun davomida tashrif buyuruvchilar soni 20 000 tani tashkil etdi. Ta'kidlash joizki ICT Expo ko'rgazmasida Invest Qatar, DataVolt, Uzum, IT-Park, Yandex, HP, Dell Technologies, Lenovo, Nokia, ZTE, Huawei, Toyota Tsusho, Ekinops va boshqa 200 dan ortiq yirik xorijiy hamda mahalliy kompaniyalarning ko'rgazma stendlari namoyish etildi.

Qatar, BAA, Xitoy, Koreya va Latviya davlatlari birinchi marotaba milliy ko'rgazma stendlarini tashkil etgan holda 60 dan ortiq kompaniyalarni jalb qildi.

Ko'rgazma ishtirokchilarining 58 foizini mahalliy tashkilotlar va 42 foizini xorijiy tashkilotlar tashkil etdi. Bundan ko'rinib turibdiki Markaziy Osiyo hamda O'zbekiston tobora xorijiy tashkilotlarning maqsadli bozoriga aylanib bormoqda, e'tiborlisi 16 ta kompaniya ICT Week Uzbekistan 2024 haftaligining asosiy hamkorlariga aylanishdi, shulardan 12 tasi xorijiy tashkilotlar hisoblanadi.

ICT Week Uzbekistan 2024 haftaligi doirasida tashkil etilgan forum va sammitlar soni 20dan oshdi, 100 ortiq xalqaro darajadagi mutaxassislar hamda epkspertlar IT sohasidagi dolzarb mavzularda ma'ruza va taqdimotlari bilan ishtirok etdi. Ushbu haftalikni mahalliy va xorijiy ommaviy axborot vositalarida keng yoritish maqsadida 50 ga yaqin media vakillar tashrif buyurdi.

ICT Week 2024 yakunlariga ko'ra bimalol aytish mumkinki, O'zbekiston tez rivojlanayotgan yangi global outsorsing markaz sifatida maqomini mustaxkamlab borish bilan bir qatorda xalqaro kompaniyalar hamda vechur investorlar, IT kompaniyalar va boshqalar uchun innovatsion yangiliklarni namoyish etish, yirik hamkorlarni topish, networking va savdo aloqalarini kuchaytirish platformasiga aylandi.

ICT Week bu sizning tez rivojlanish kalitingiz hamda ishonchli biznes hamkoringiz.

ICT Week Uzbekistan is a major international event in information and communication technologies (ICT), held annually since 2004. This week-long gathering brings together leading experts, executives, and professionals from top organizations around the world. It serves as a platform combining forums, summits, exhibitions, and press conferences, offering opportunities to discuss technological innovations and share expertise. The event's primary goal is to drive the development of information and communication technologies and keep participants updated on the latest industry advancements.

ICT Week Uzbekistan also aims to create a space for knowledge exchange and the showcasing of cutting-edge technologies and innovations. It serves as an ideal platform to highlight the attractiveness of Uzbekistan's ICT market to foreign investors and to foster collaboration between the government, businesses, and consumers. The event is consistently supported by the Ministry of Digital Technologies of the Republic of Uzbekistan.

In the last two years, the IT Education Association has organized ICT Week Uzbekistan, significantly enhancing the quality of the event. This year, the event achieved remarkable results, attracting over 1,000 leaders and representatives from more than 40 countries, including the USA, Canada, Germany, France, Finland, China, South Korea, Japan, Qatar, the UAE, Saudi Arabia, India, Turkey, Georgia, Kazakhstan, and more, all exploring the potential of the Central Asian market.

A key highlight among the participants includes 100 representatives from companies with an average market value of 100 million USD, 20 representatives from firms valued around 1 billion USD, and 10 leaders from companies with market capitalizations exceeding 10 billion USD.

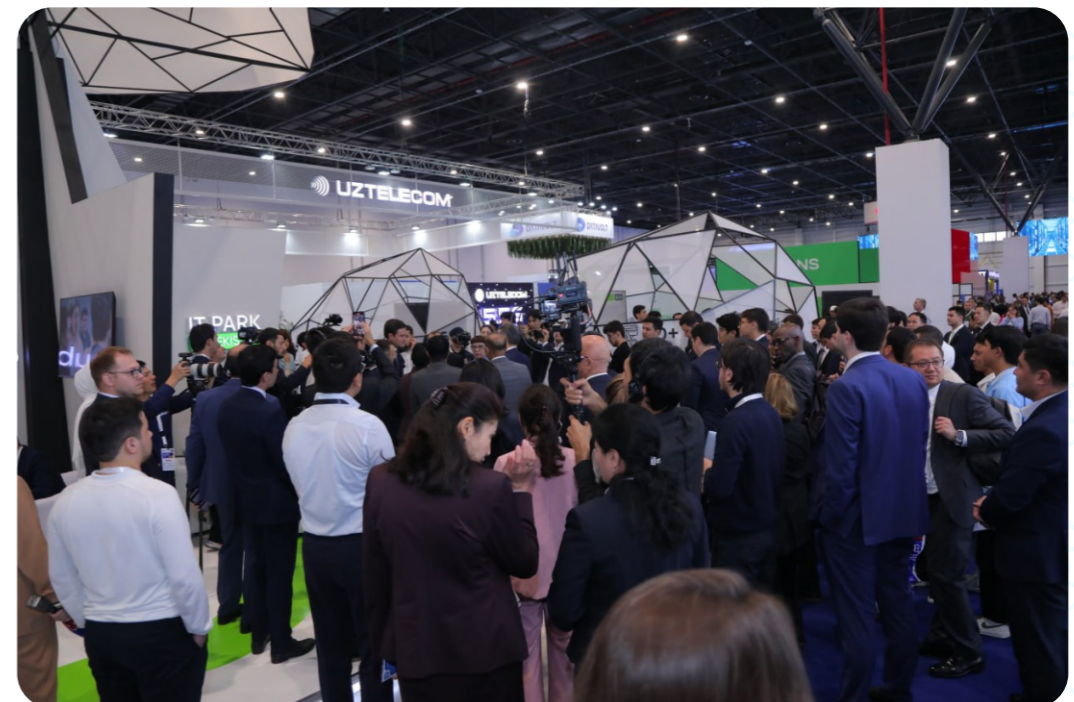

ICT Week Uzbekistan 2024 featured forums, summits, and the ICT Expo on a 10,000 square meter area, drawing 20,000 visitors over four days. The ICT Expo showcased over 200 major foreign and local companies, including Invest Qatar, DataVolt, Uzum, IT-Park, Yandex, HP, Dell Technologies, Lenovo, Nokia, ZTE, Huawei, Toyota Tsusho, and Ekinops, among others.

For the first time, countries such as Qatar, the UAE, China, South Korea, and Latvia hosted national exhibition stands, representing over 60 companies. Of the participating organizations, 58% were local, while 42% were foreign, underscoring Uzbekistan and Central Asia's growing appeal as target markets. Sixteen companies served as key partners for ICT Week Uzbekistan 2024, including twelve international organizations.

Throughout ICT Week Uzbekistan 2024, over 20 forums and summits took place, with more than 100 international experts and specialists presenting on current topics in the IT sector. Around 50 media representatives attended to ensure extensive coverage of the event in both local and international media.

The results of ICT Week 2024 underscore Uzbekistan's emergence as a rapidly developing global outsourcing center and as a platform for showcasing innovations to international companies, venture investors, and IT firms. The event enables major partnerships, networking, and the strengthening of trade relations.

ICT Week is your gateway to rapid development and a reliable business partnership.

Uzum

Kundalik muammolarni hal qilish va biznesni rivojlantirish uchun raqamli servislarning milliy ekotizimi. **UZUM** ekotizimi O'zbekiston tarixidagi birinchi IT-yakkashox bo'ldi. Har oyda Uzum servislardan mamlakatning 10 milliondan ortiq aholisi foydalanadi. Uzum jismoniy shaxslar va kichik va o'rta biznes uchun e-commerce, fintex va bank servislarni birlashtiradi: marketpleys, ekspres-yetkazib berish servisi, klassik va raqamli bank, BNPL-servis, avtomobil sotib olish platformasi, shuningdek, tadbirkorlar uchun ilova. Ekotizimning fintex va e-commerce mahsulotlarining integratsiyasi tufayli Uzum O'zbekiston aholisi uchun noyob foydalanuvchi tajribasini yaratib, mamlakatning barcha hududlari va aholi punktlari uchun eng zamonaviy texnologiyalarni taqdim etadi. Shunday qilib, butun mamlakat bo'ylab 100 mingdan ortiq tadbirkorlar o'z bizneslarini rivojlantirish uchun ekotizim servislardan foydalanadilar, Uzum Market logistika infratuzilmasi esa yil oxirigacha 10 mingdan ortiq aholisi bo'lgan O'zbekistonning barcha aholi punktlarini qamrab oladi.

A national ecosystem of digital services designed to address everyday tasks and support business development, the UZUM ecosystem has become the first IT unicorn in Uzbekistan's history. More than 10 million people in the country use Uzum services each month. Uzum combines e-commerce, fintech, and banking services for individuals, as well as small and medium-sized businesses, offering a marketplace, express delivery service, traditional and digital banking options, a buy now, pay later (BNPL) service, a platform for purchasing cars, and an application for entrepreneurs.

Through the integration of fintech and e-commerce products within the ecosystem, Uzum creates a unique user experience for the residents of Uzbekistan, making cutting-edge technologies accessible to individuals in all regions and settlements across the country. As a result, over 100,000 entrepreneurs nationwide utilize the ecosystem's services to grow their businesses, and by the end of the year, Uzum Market's logistics infrastructure will serve all settlements in Uzbekistan with populations exceeding 10,000 residents.

- Uzum Market — keng assortimentli va mamlakat bo'ylab 160 dan ortiq aholi punktlariga 1 kunda yetkazib beradigan marketpleys,
- Uzum Tezkor — 9 ta shahardagi 1600 dan ortiq restoran, kafe va do'konlardan tayyor taomlarga buyurtma berish mumkin bo'lgan servis,
- Kapitalbank — mamlakatdagi eng yirik xususiy bank,
- Uzum Bank — p2p-o'tkazmalar hajmi bo'yicha mamlakatdagi eng yirik raqamli bank,
- Uzum Nasiya — mamlakatdagi yetakchi muddatli to'lov servisi,
- Uzum Avto — avtomobillarini xarid qilish platformasi,
- Uzum Business — tadbirkorlar uchun ilova.

- Uzum Market with a wide range of products and 1-day delivery to more than 160 locations across the country,
- Uzum Tezkor service, where you can order ready meals with delivery from more than 1600 restaurants, cafes and stores in 9 cities,
- Kapitalbank, the country's largest private bank,
- Uzum Bank, the country's largest digital bank in terms of p2p transfers,
- the country's leading installment service Uzum Nasiya,
- platform for buying cars Uzum Avto,
- application for entrepreneurs Uzum Business.

Yandex

Yandex Uzbekistan

Yandex Uzbekistan O'zbekistonda insonlar hayotini yaxshilash uchun yangi texnologiyalarni ishlab chiqish, joriy etish va raqamli muhitni takomillashtirishga xizmat qiladi.

Kompaniya 2018 yildan buyon mamlakatda faoliyat yuritib kelmoqda va aholiga onlayn taksi buyurtma qilish, oziq-ovqat yetkazib berish, bulutli xizmatlar, geoxizmatlar, ko'ngilochar va ta'limga oid loyihalar kabi servislarni taklif etadi.

Yandex Toshkent shahrida O'zbekistondagi ofisini ochdi va mamlakatda muhim xizmatlar va mahsulotlarni rivojlantiradi. Ofis kompaniyaning xizmatlari bo'yicha jamoalarni birlashtirib, O'zbekistonning raqamli landshaftiga hissa qo'shmoqda.

Bundan tashqari, Yandex dasturchilar uchun IT stajirovkalar dasturini ishga tushirdi, bu esa kompaniya va O'zbekistonning keng IT sektori uchun talantlar bazasini yaratishga qaratilgan. Ushbu tashabbus boshqa ta'lim loyihalarini, jumladan, maktab o'quvchilari uchun dasturlash maktablari va kompyuter fanlari o'qituvchilari uchun kodlash kurslarini qo'llab-quvvatlaydi.

Yandex shuningdek, Technovation Girls kabi dasturlarni faol ravishda qo'llab-quvvatlaydi va raqobatli dasturlash seminarlarini tashkil etadi, bu orqali mahalliy texnologiya jamiyatining o'sishiga hissa qo'shadi.

Yandex Uzbekistan is focused on developing and implementing new technologies to enhance people's lives and improve the digital landscape in Uzbekistan.

Since starting operations in the country in 2018, the company has been providing residents with a variety of services, including online taxi ordering, food delivery, cloud and geo services, entertainment options, and educational projects.

Yandex Uzbekistan has established its office in Tashkent, driving the development of key services and products in the country. The office brings together teams working on company's services, contributing to the digital landscape of Uzbekistan.

Additionally, Yandex has already launched an IT internship program for developers, aimed at creating a talent pool for both the company and the wider IT sector in Uzbekistan. This initiative complements other educational projects, including programming schools for high school students and coding courses for computer science teachers.

Yandex also actively supports programs like Technovation Girls and organizes competitive programming workshops, contributing to the growth of the local tech community.

DELL Technologies

Dell Technologies

Hozirgi vaqtda Dell Technologies 100 milliard dollardan ortiq daromadga ega biznes bo'lib, hisoblash jarayonlarini o'zgartiradi va insoniyatning taraqqiyotiga hissa qo'shadigan texnologiyalarni ishlab chiqadi.

Dell kompyuter uskunalari ishlab chiqaruvchisidan infratuzilma yechimlari taqdim etuvchi yetkazib beruvchiga aylanishda muhim o'zgarishlar qildi. Bugungi kunda Dell Technologies 180 mamlakatda faoliyat yuritib, 130,000 dan ortiq xodimga ega bo'lib, global raqamli muhitni o'zgartirishda muhim rol o'ynaydi.

Today, Dell Technologies has evolved into a business valued at over \$100 billion, transforming the computing landscape and developing technologies that drive human progress.

Originally a computer hardware manufacturer, Dell has successfully transitioned into an infrastructure solutions provider with a strong presence in multi-cloud, server solutions, software, and IT services. With operations spanning more than 180 countries, Dell Technologies plays a vital role in shaping the digital landscape and employs over 130,000 people worldwide.

HP

Biz foyda olish eng muhim narsa emas deb hisoblaydigan texnologiya kompaniyasimiz. Har bir kompaniya dunyoni yaxshilashga intilishi kerak.

Bizning iqlimni yaxshilash, inson huquqlarini himoya qilish va raqamli tenglikni ta'minlash bo'yicha qilayotgan sa'y-harakatlarimiz, biz buni amalga oshirish uchun barcha imkoniyatlarimizni ishga solayotganimizni ko'rsatadi.

Bizning texnologiyalarimiz, shuningdek, shaxsiy tizimlar, printerlar va 3D bosib chiqarish yechimlarini o'z ichiga olgan mahsulot va xizmatlar portfeli, ushbu mazmunli jarayonlarni amalga oshirish uchun yaratilgan.

We are a technology company that believes that profit is not the most important thing. Every company should strive to make the world a better place.

Our efforts to improve the climate, protect human rights, and achieve digital equality demonstrate that we are doing everything possible for this.

Our technologies, along with our portfolio of products and services—including personal systems, printers, and 3D printing solutions—are designed to facilitate these meaningful processes.

Huawei

1987-yilda tashkil etilgan Huawei axborot-kommunikatsiya texnologiyalari (AKT) infratuzilmasi va aqlli qurilmalarni yetkazib beruvchi yetakchi global provayder hisoblanadi. Huawei 207 000 xodimga ega va 170 dan ortiq mamlakat va mintaqalarda faoliyat yuritadi va butun dunyo bo'ylab uch milliarddan ortiq odamga xizmat ko'rsatadi.

Huawei fundamental tadqiqotlar va ochiq innovatsiyalarga katta miqdorda sarmoya kiritadi, mijozlar ehtiyojlarini ochiq fikr bilan qondiradi va hal qiladi, shu bilan birga bu ehtiyojlarni fan va texnologiya yordamida boshqaradi. U moslashuvchan biznes modellarini yaratadi va ko'plab tarmoqlarni keng turdagi modellar va ilovalarni qabul qilishga undaydi. Bunday tashabbuslar orqali Huawei har bir insonga, uyga va tashkilotga to'liq bog'langan, aqlli dunyo uchun raqamli texnologiyalarni yetkazishga sodiqdir.

Founded in 1987, Huawei is a leading global provider of information and communications technology (ICT) infrastructure and smart devices. The company has 207,000 employees and operates in over 170 countries and regions, serving more than three billion people worldwide.

Huawei heavily invests in basic research and open innovation, accommodating and addressing customer needs with an open mind while guiding these needs with science and technology.

The company has developed flexible business models and encourages numerous industries to adopt a wide range of models and applications. Through these initiatives, Huawei is committed to bringing digital technology to every person, home, and organization for a fully connected, intelligent world.

"Huawei O'zbekistonda 25 yildan beri faoliyat yuritib, mahalliy aloqa operatorlari, davlat sektori va sanoat tarmoqlari bilan yaqin hamkorlik qilib, foydalanuvchilarni aqlli qurilmalar bilan ta'minlab kelmoqda. O'tgan yillar davomida AKT infratuzilmasini mustahkamlash va raqamli energiyani rivojlantirish bo'yicha qator milliy ahamiyatga ega loyihalar amalga oshirildi. O'zbekistonning yashil iqtisodiyoti va raqamli transformatsiyasini rivojlantirish strategiyalariga amal qilgan holda kompaniyamiz innovatsiyalarni joriy etish, yashil texnologiyalarni taqdim etish, hamkor ekotizimni rivojlantirish va yosh iste'dodlarni tayyorlash orqali mahalliy jamiyat rivojiga hissa qo'shishga intiladi".

Chen Szyakay,
O'zbekistondagi Huawei Direktori

"Huawei has been operating in Uzbekistan for 25 years in close collaboration with local telecom operators, public sector and industries, and providing smart devices to the consumers.

Over the years, a number of state importance projects have been implemented to strengthen digital infrastructure and develop digital energy.

Following the targets of Digital Uzbekistan 2030 development and Green Economy transformation strategy, Huawei company is committed to contribute to local society through innovations, green technologies, partner ecosystem expansion and cultivation of local talents."

Chen Jiakai
Director of Huawei Uzbekistan

ZTE

ZTE Corporation

ZTE Corporation — yetakchi jahon ta'minotchisi bo'lib, kommunikatsiya va axborot texnologiyalari sohasida kompleks yechimlar taqdim etadi. Kompaniya 160 dan ortiq mamlakatdagi operatorlar, korxonalar va iste'molchilar uchun innovatsion texnologiyalar va integratsiyalangan yechimlar taklif etadi. ZTE portfelida simsiz va simli telekommunikatsiya uskunalari, terminallari va professional telekommunikatsiya xizmatlarining barcha seriyalari mavjud. Dunyo aholisining chorakdan ortig'ini qamrab olgan ZTE raqamli va intellektual ekosistemani yaratishga, shuningdek, butun dunyoda aloqa va ishonchni ta'minlashga intiladi.

ZTE Corporation is a leading global provider of integrated solutions in the field of communications and information technology. The company provides innovative technologies and end-to-end solutions to operators, enterprises and consumers in more than 160 countries. Its portfolio spans all series of wireless, wireline, devices and professional telecommunications services. Serving over a quarter of the global population, ZTE is dedicated to creating a digital and intelligent ecosystem, and enabling connectivity and trust everywhere.

Kompaniya 20 yildan ortiq vaqtdan beri O'zbekiston bozorida faoliyat yuritmoqda. ZTE, Uztelecom, Ucell va UMS uchun 2/3/4/5G aloqa tarmoqlarini yaratish bo'yicha loyihalarni amalga oshiradi. 2G GSM va CDMA tarmoqlarini qurishdan boshlab, ZTE mamlakatning barcha mintaqalarida 3G va 4G texnologiyalarini joriy etish orqali mobil tarmoqlarni modernizatsiya qilishda ishtirok etdi. Ma'lumotlarni uzatish tezligini oshirish va kelajakda O'zbekistonda 5G texnologiyasini joriy etish maqsadida, ZTE simsiz aloqa tarmoqlari uchun ilg'or yechimlarni ilgari suradi. Kompaniya operatorlar bilan hamkorlikda O'zbekistonning barcha yirik shaharlarida 5G tarmoqlarini yaratishni rejalashtirmoqda. Hozirda kompaniyada 200 dan ortiq o'zbek xodimlari ishlaydi va lokalizatsiya darajasi 70% dan yuqori. ZTE mahalliy xodimlar uchun 1000 dan ortiq ish o'rinlari yaratdi.

The company has been actively operating in the Uzbek market for over 20 years. ZTE implements projects to deploy 2/3/4/5G communication networks for Uztelecom, Ucell, UMS. Starting with the construction of 2G GSM and CDMA networks, ZTE participated in the modernization of mobile networks with the introduction of 3G and 4G technologies in all regions of the country. In order to increase the data transfer speed on existing networks and the future introduction of 5G technology in Uzbekistan, ZTE promotes advanced solutions for wireless networks. ZTE is dedicated to assist operators to deploy 5G networks in all major cities of Uzbekistan. Currently, the company employs more than 200 Uzbek employees, and the localization level exceeds 70%. ZTE has created more than 1,000 jobs for local employees.

IT Park Uzbekistan

IT Park Uzbekistan mamlakat texnologiya sanoatining drayveri bo'lib, IT-biznesining rivojlanishi va 0% soliq imtiyozlari bilan offshor outsourcing uchun qulay sharoitlarni taqdim etadi. Atigi 5 yil ichida IT Park 2300 dan ortiq IT va xizmat ko'rsatish kompaniyalarini jalb qildi, ularning 870 taga yaqini eksport qiluvchi korxonalar bo'lib, bu uni O'zbekistonni global IT habga aylantirish yo'lidagi asosiy ishtirokchiga aylantirdi.

O'zbekistonning yosh va ko'p tilni biladigan ishchi kuchi uning eng katta ustunliklaridan biridir. 37 milliondan ortiq aholiga ega, 66 foizi 30 yoshgacha bo'lgan va Markaziy Osiyoda ingliz tilida eng ko'p so'zlashuvchi mamlakat sifatida, O'zbekiston o'zining IT hab strategiyasi doirasida mahalliy mutaxassislar uchun yangi ish o'rinlari yaratishga alohida e'tibor qaratmoqda.

IT Park dasturlari orqali O'zbekiston butun dunyo bo'ylab IT-yechimlar yoki raqamli xizmatlarni taqdim etuvchi kompaniyalarni tashkil etishning soddalashtirilgan jarayonlarini taklif qiladi. Mahalliy infratuzilma ham kengayib, 225 ming kvadrat metr ofis maydoni, jumladan, mamlakat bo'ylab 14 ta filialni qamrab oladi. IT Parkka a'zo bo'lgan kompaniyalar biznesni tashkil etishni osonlashtiradigan va to'liq soliq imtiyozlarini taqdim etadigan "One-Stop-Shop" dasturidan foydalanadilar, IT Visa dasturi esa teng ijtimoiy huquqlar bilan uch yilgacha yashash huquqini beradi.

"Zero Risk" dasturi Toshkentdan tashqarida ijara to'lovlaridan ozod qilish va to'liq jihozlangan ofis xonalaridan foydalanish imkonini taqdim etadi. Bundan tashqari, yaqinda ochilishi kutilayotgan "Enterprise Uzbekistan" Raqamli texnologiyalar xalqaro markazi maxsus huquqiy tartibga solingan iqtisodiy erkin zona vazifasini bajaradi.

O'zbekistonda o'z faoliyatini yo'lga qo'ygan xorijiy kompaniyalar, mamlakatning Yevropa va Osiyo o'rtasidagi strategik joylashuvi tufayli, MDH va undan tashqaridagi yangi bozorlarga kirish imkoniyatiga ega bo'ladi. Mamlakatning qulay vaqt mintaqasi global operatsiyalarni qo'llab-quvvatlaydi: Shimoliy Amerikadan 9 soat, Yevropadan 3 soat oldinda, Osiyodan 4 soat orqada va MENA mintaqasidan 1 soat oldinda joylashgan.

2024-yilda O'zbekistonning IT-eksport geografiyasi 69 ta davlatga kengayib, o'tgan yilga nisbatan 146 foizga ko'paydi. 2023-yilda 344 million dollarlik IT-eksportning asosiy qismi Shimoliy Amerikaga (45%), undan keyin MDH va APAC mintaqalariga (2%), Yevropa va Buyuk Britaniyaga (2%) hamda MENA mintaqasiga (6%) yo'naltirildi. O'zbekistonning 2024-yil birinchi yarmida qayd etilgan 6,4 foizlik jadal iqtisodiy o'sishi uning global raqobatbardoshligini yanada oshirmoqda.

2024-yil o'rtalariga kelib, IT Parkda band bo'lganlar soni 32 000 kishiga yetib, 2023-yil oxiriga nisbatan 123 foizga ko'paydi. Hududlardagi bandlik esa 145 foizga oshib, 5 307 ta yangi ish o'rni yaratildi. O'zbekiston startaplari 133 million dollar miqdorida venchur investitsiyalarini jalb qildi, bu esa innovatsion loyihalarga xalqaro qiziqishning tobora ortib borayotganidan dalolat bermoqda.

IT Park startaplari va IT-kompaniyalarni investitsiyalar jalb qilish, global aloqalarni rivojlantirish, xorijiy IT-kompaniyalar va investorlar bilan hamkorlik o'rnatish hamda xalqaro ko'rgazma va forumlarda ishtirok etishda qo'llab-quvvatlashni davom ettirmoqda.

IT Park Uzbekistan serves as a driver for the country's technology industry, providing favorable conditions for the development of IT businesses and offshore outsourcing with zero tax incentives. In just five years, IT Park has attracted over 2,300 IT and service companies, nearly 870 of which are exporters, positioning it as a key player in transforming Uzbekistan into a global IT hub.

One of Uzbekistan's greatest advantages is its young and multilingual workforce. With a population of over 37 million, 66% of whom are under the age of 30, Uzbekistan stands out as the country with the highest number of English speakers in Central Asia. As part of its IT hub strategy, Uzbekistan places special emphasis on creating new job opportunities for local specialists.

Through its programs, IT Park offers streamlined processes for establishing companies that provide IT solutions or digital services worldwide. The local infrastructure is also expanding, encompassing 225,000 square meters of office space, including 14 branches across the country. Companies that are members of IT Park benefit from the "One-Stop-Shop" program, which simplifies business establishment and offers full tax incentives. The IT Visa program grants the right to reside for up to three years with equal social rights.

The "Zero Risk" program provides exemptions from rental payments outside Tashkent and access to fully equipped office spaces. Additionally, the upcoming "Enterprise Uzbekistan" International Center for Digital Technologies will serve as a specially regulated economic free zone.

Foreign companies operating in Uzbekistan will have the opportunity to access new markets in the CIS and beyond due to the country's strategic location between Europe and Asia. Its favorable time zone supports global operations: it is nine hours ahead of North America, three hours ahead of Europe, four hours behind Asia, and one hour ahead of the MENA region.

In 2024, Uzbekistan's IT export geography expanded to 69 countries, representing a 146% increase compared to the previous year. In 2023, the majority of the \$344 million in IT exports was directed to North America (45%), followed by the CIS and APAC regions (2%), Europe and the UK (2%), and the MENA region (6%). Uzbekistan's recorded 6.4% rapid economic growth in the first half of 2024 further enhances its global competitiveness.

By mid-2024, the number of employees in IT Park is expected to reach 32,000, reflecting a 123% increase compared to the end of 2023. Employment in regional areas has increased by 145%, resulting in the creation of 5,307 new jobs. Uzbek startups attracted \$133 million in venture investments, indicating a growing international interest in innovative projects.

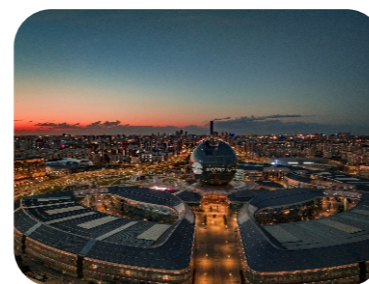

IT Park continues to support startups and IT companies in attracting investments, developing global connections, collaborating with foreign IT companies and investors, and participating in international exhibitions and forums.

International techpark of IT-startups Astana Hub

"Astana Hub" — Markaziy Osiyodagi eng yirik texnopark bo'lib, texnologik biznes ekotizimini rivojlantirish, IT-mutaxassislarni tayyorlash va startap loyihalarini qo'llab-quvvatlashga qaratilgan. Hozirgi kunda texnoparkda 1500 dan ortiq texnologik kompaniyalari, shu jumladan 400 dan ziyod xorijiy a'zolar faoliyat yuritmoqda. Ushbu kompaniyalar keng qamrovli yordamdan, jumladan biznesni rivojlantirish va kengaytirish dasturlari, maxsus soliq va viza imtiyozlari, shuningdek, axborot-ta'lim ko'magi hamda moddiy-texnik infratuzilmadan foydalanadi. 2018-yilda rasman ish boshlagan "Astana Hub" qisqa vaqt ichida Markaziy Osiyodagi eng yirik innovatsion markazga aylandi. Shu davr mobaynida uning ishtirokchilari 819 million dollarlik texnologik eksportni amalga oshirdi, 274,6 milliard tengge investitsiya jalb qildi, umumiy daromadi 1,1 trillion tengge yetdi va 28 mingdan ortiq ish o'rni yaratdi.

Astana Hub is the largest technology park in Central Asia, dedicated to fostering an ecosystem for tech businesses, training tech specialists, and supporting startup projects. Currently, more than 1,500 tech companies are registered at the technology park, including over 400 foreign members. These companies benefit from comprehensive support, including business development and scaling programs, special tax and visa conditions, as well as informational, educational support, and material infrastructure. Since its official launch in 2018, Astana Hub has established itself as the largest innovation hub in Central Asia. During this period, its participants have generated \$819 million in tech exports, attracted T274.6 billion in investments, achieved a total income of T1.1 trillion, and created over 28,000 jobs.

"Astana Hub" — "Google for Startups" va "Draper" Universitetining Markaziy Osiyodagi yagona hamkori hisoblanadi. U startaplarga venchur kapitalini jalb qilish va jahon bozorlariga chiqishga ko'maklashish uchun mo'ljallangan akseleratsiya va inkubatsiya dasturlarini taklif etadi. Masalan, "Google for Startups" bilan hamkorlikda o'tkazilgan "Silkway Accelerator" dasturiga 1000 dan ortiq ariza kelib tushdi. Startaplar jami 26 million dollardan ko'proq mablag' to'pladi va BAA, Turkiya va AQSh kabi bozorlarda o'z faoliyatini kengaytirdi. 2023-yilda "Astana Hub" "Draper" universitetining Markaziy Osiyodagi ilk hamkoriga aylandi. Ushbu hamkorlik tufayli 27 ta startap Silikon vodiysiga tashrif buyurib, nufuzli "Hero Training" akseleratsiya dasturida ishtirok etish imkoniyatiga ega bo'ldi.

Astana Hub is the exclusive partner of Google for Startups and Draper University in Central Asia. It offers acceleration and incubation programs designed to help startups attract venture capital and expand into global markets. For instance, the Silkway Accelerator, held in collaboration with Google for Startups, received over 1,000 applications, leading to startups collectively raising more than \$26 million and scaling their operations in markets such as the UAE, Turkey, and the USA.

In 2023, Astana Hub became Draper University's first partner in Central Asia, opening unique opportunities for 27 startups to travel to Silicon Valley and participate in the exclusive Hero Training acceleration program.

Astana Hub participants include industry leaders such as Citix, Netcracker, Epam, Playrix, Sergek, Aviata, Mytona, Documentolog, Damumed, Sxodim, Satu.kz, Chocofood, Ozon, 1Fit, Jet Sharing, and others.

"Astana Hub" ishtirokchilari orasida "Citix", "Netcracker", "Epam", "Playrix", "Sergek", "Aviata", "Mytona", "Documentolog", "Damumed", "Sxodim", "Satu.kz", "Chocofood", "Ozon", "1Fit", "Jet Sharing" va boshqa soha yetakchilari bor.

UZINFOCOM

Yagona integrator **UZINFOCOM** - O'zbekistonning raqamli kelajagini shakllantiruvchi arxitektor. 22 yil davomida kompaniya muhim davlat resurslarini raqamlashtirdi: my.gov.uz, pm.gov.uz, sun'iy intellektni rivojlantirishda katta hissa qo'shdi va mamlakatning raqamli kelajagini shakllantirishda faol ishtirok etmoqda. Sun'iy intellekt sohasidagi MyID va MyID Palm kabi rivojlanmalar xizmatlarni olishda xavfsizlik va qulaylikni ta'minlaydi, har bir fuqaroning hayotini oson va qulayroq qiladi.

UZINFOCOM - the Single integrator, is the architect of Uzbekistan's digital future. Over the past 22 years, the company has digitized key government resources such as my.gov.uz and pm.gov.uz, made significant contributions to the development of artificial intelligence, and continues to participate in shaping the country's digital future. Developments in the field of artificial intelligence, such as MyID and MyID Palm, ensure security and convenience in receiving services, making the lives of every citizen easier and more comfortable.

UZINFOCOM xorijiy hamkorlar bilan hamkorlik qiladi va o'z ta'sirini nafaqat yaqin mintaqalarda, balki MDH va Evropada kengaytirishga intiladi. Mijozlar va hamkorlar uchun qulaylik yaratish maqsadida kompaniya O'zbekistonning muhim mintaqalarida to'rtta filialga ega: Nukus, Urganch, Farg'ona, shuningdek, Toshkentda ikkita ofis mavjud. Ushbu strategik joylashgan ofislar UZINFOCOM'ga keng tarmog'ini samarali qo'llab-quvvatlash va sifatli xizmatlar taqdim etish imkonini beradi.

UZINFOCOM actively collaborates with international partners and is focused on expanding its influence beyond neighboring regions, aiming to extend its reach into CIS countries and Europe. To better serve its clients and partners, the company operates four branches across various regions of Uzbekistan: Nukus, Urgench, Fergana, and two offices in Tashkent. This strategic presence allows UZINFOCOM to provide more accessible and efficient support to its diverse network of stakeholders.

Artificial Intelligence Journey

AI Journey ("Sun'iy intellekt dunyosiga sayohat") — bu sun'iy intellekt sohasida dunyodagi eng yirik xalqaro konferentsiyalardan biridir. Tadbirda dunyoning turli burchaklaridan yetakchi ekspertlar, olimlar va biznes vakillari to'planib, AI ning eng dolzarb mavzularini muhokama qilishadi. 2023 yilda konferentsiya translyatsiyasini 190 mamlakattan 150 milliondan ortiq odam tomosha qildi. Bu yil asosiy tadbir kuzda Moskvada to'qqizinchi marta o'tkaziladi.

AI Journey spikerlari sun'iy intellektni rivojlantirishdagi keyingi qadamlarni belgilovchi dolzarb masalalarni muhokama qiladi: AGI, LLM, CV, kvant texnologiyalari, GenAI, ESG sohasida AI va boshqalar. Texnologiyalar ilm-fan, biznes va jamiyat uchun amaliy foyda nuqtai nazaridan ko'rib chiqiladi.

AI Journey tadqiqotchilarga dunyoning istalgan nuqtasidan o'z ko'nikmalari va AI bo'yicha ishlanmalarini namoyish etish imkonini beradi: bolalar uchun xalqaro tanlovlar (AI Challenge) va kattalar uchun (AIJ Contest), Rossiya Fanlar akademiyasi bilan birgalikda nashr etiladigan ilmiy maqolalar tanlovi, shuningdek, Rossiya va chet elda yuqori darajadagi spikerlar ishtirokida o'tkaziladigan AIJ tadbirlari. 2016 yildan buyon AI Journey ga bo'lgan qiziqish doimiy ravishda ortib bormoqda, bu esa ko'tarilayotgan masalalarning global AI-jamiyat uchun dolzarbligini va ahamiyatini tasdiqlaydi.

AI Journey

AI Journey (Artificial Intelligence Journey) is one of the world's largest international AI conferences. The event brings together leading experts, scientists and entrepreneurs from all over the world to discuss the most trending AI topics. In 2023 more than 150 mln people from 190 countries joined the conference translation. This year the main event will take place in Moscow in autumn for the ninth time already.

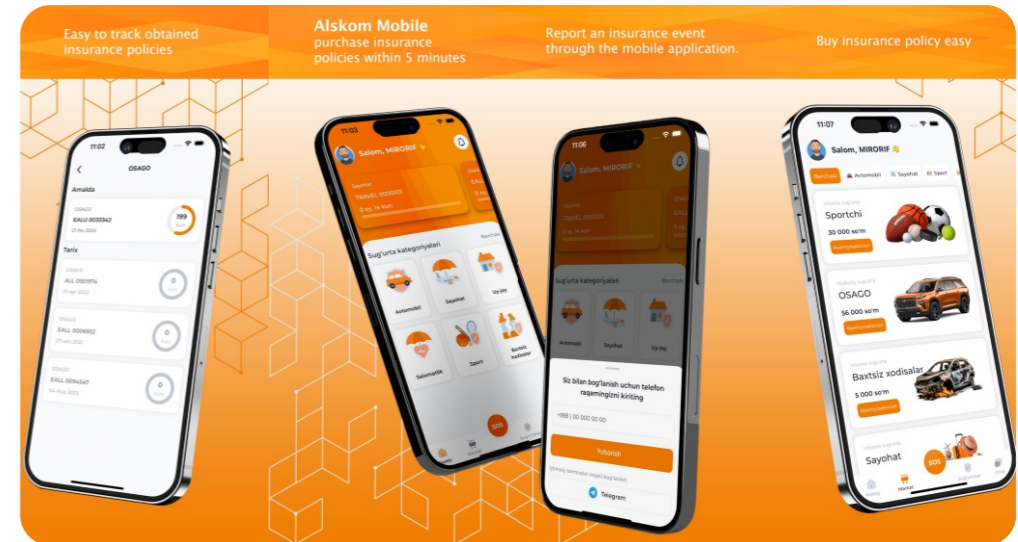

AI Journey speakers will cover most topical issues defining next steps in artificial intelligence development: AGI, LLM, CV, quantum technologies, GenAI, AI for ESG and many other things. Technology is considered from the perspective of practical use for science, business and society. AI Journey offers opportunities to assert skills and discoveries in AI for researchers from across the globe: the international challenge for children (AI Challenge) and adults (AIJ Contest), selection of scientific articles for the journal published by Russian Academy of Sciences and also the series of AIJ events with TOP speakers in Russia and abroad. Starting from 2016 the interest towards AI Journey has been constantly growing thus confirming the relevance and importance of the covered topics for the global AI-community.

ESET

ESET Kompaniyaning asosiy vazifasi — uy va korporativ foydalanuvchilar, shuningdek, davlat tuzilmalari uchun xavfsiz IT muhitini ta'minlash. Bu innovatsion texnologiyalar va ko'p darajali yechimlar orqali amalga oshiriladi, ular avvalo hujumlarning eng keng tarqalgan vektorlarini oldini olishga va neytrallashtirishga qaratilgan. Bunda yuqori aniqlik darajasi past yolg'on ishga tushirishlar bilan muvozanatda bo'lib, an'anaviy ravishda tizimga minimal ta'sir ko'rsatadi.

The **ESET** company's primary mission is to provide a secure IT environment for home and corporate users, as well as government institutions, through innovative technologies and multi-layered solutions. These solutions are primarily focused on prevention and are designed to neutralize the most common attack vectors. At the same time, a high level of detection is balanced with a low rate of false positives and traditionally minimal impact on the system.

EKINOPS France SA

Ekinops — butun dunyo bo'ylab xizmat ko'rsatuvchi provayderlar uchun ochiq, ishonchli va innovatsion tarmoq ulanish yechimlarining yetakchi yetkazib beruvchisi. Bizning dasturlashtiriladigan va kengaytiriladigan yechimlarimiz yuqori o'zgaruvchanlikka ega bo'lib, yangi xizmatlarni tez, moslashuvchan va iqtisodiy jihatdan samarali tarzda taqdim etishga imkon beradi. Bu yechimlar yuqori o'tkazuvchanlikka ega optik transport va virtualizatsiyalashni qo'llab-quvvatlaydigan boshqariladigan korporativ xizmatlar uchun mo'ljallangan.

Ekinops is a leading provider of open, trusted and innovative network connectivity solutions to service providers around the world. Our programmable and highly scalable solutions enable the fast, flexible, and cost-effective deployment of new services for both high-speed, high-capacity optical transport as well as virtualization-enabled managed enterprise services.

Bizning mahsulot assortimenti uchta o'zaro to'ldiruvchi mahsulot va xizmatlar to'plamidan iborat: EKINOPS360, OneAccess va Compose.

- EKINOPS360 optik transport yechimlarini taklif etadi, bu esa metro, mintaqaviy va shaharlararo tarmoqlar uchun WDM texnologiyasidan foydalanib, yuqori samarali arxitekturalar (masalan, "nuqtadan-nuqtaga", "halqa" va "optik tarmoq") va OTN orqali kengaytirilgan o'zaro bog'liqlikni ta'minlaydi.

- OneAccess tarmoq funksiyalariga kirish uchun jismoniy va virtualizatsiyalash variantlari bo'yicha keng tanlovni taqdim etadi.

- Compose xizmat ko'rsatuvchi provayderlarga ularning tarmoqlarini dasturiy ta'minot asosida boshqariladigan qilib o'zgartirishda yordam beradi, bu esa turli boshqaruv dasturlari va xizmatlar, jumladan, SD-WAN Xpress va SixSq Edge-to-Cloud kengaytiriladigan yechimlarini o'z ichiga oladi.

Xizmat ko'rsatuvchi provayderlar SDN va NFV tarqatish modellari orqali harakat qilar ekan, Ekinops bugun kelajakda tarqatishni ta'minlaydi va operatorlarga istalgan vaqtda ochiq, virtualizatsiyalashgan yetkazib berish modeliga osonlik bilan o'tishga imkon beradi.

Ekinopsning global tashkiloti (EKI) - Parij Euronext birjasida ro'yxatga olingan ochiq kompaniya bo'lib, to'rt qit'ada faoliyat yuritadi

Our product portfolio consists of three highly complementary product and service sets: EKINOPS360, OneAccess and Compose.

- EKINOPS360 provides optical transport solutions for metro, regional and long-distance networks with WDM for high-capacity point-to-point, ring, and optical mesh architectures, and OTN for improved bandwidth utilization and efficient multi-service aggregation.

- OneAccess offers a wide choice of physical and virtualized deployment options for access network functions.

- Compose supports service providers in making their networks software-defined with a variety of software management tools and services, including the scalable SD-WAN Xpress and SixSq Edge-to-Cloud solutions.

As service providers embrace SDN and NFV deployment models, Ekinops enables future-proofed deployment today, enabling operators to seamlessly migrate to an open, virtualized delivery model at a time of their choosing.

A global organization, Ekinops (EKI) - a public company traded on the Euronext Paris exchange operates on four continents.

Mobiuz - 4G LTE va 5G tarmoqlarida yuqori sifatli aloqa va mobil internet xizmatlarini taqdim etuvchi O'zbekistonning yetakchi mobil operatorlaridan biri. Mobiuz zamonaviy yechimlar va xizmatlarni taklif qilish orqali innovatsiyalar va mijozlar tajribasini yaxshilashga intiladi. Mobiuz innovatsion yechimlarni birinchi bo'lib joriy etishga intilib kelmoqda. 2024-yilda kompaniya birinchi bo'lib VoWiFi texnologiyasini tijoriy ishga tushirdi, 2023-yilda esa birinchi bo'lib butun respublika bo'ylab VoLTE/ViLTE xizmatlarini ishga tushirdi. Texnologiyalarga doimiy investitsiyalar tufayli kompaniya xizmatlar turlarini, shu jumladan mobil ilovalar ekotizimini kengaytirib bormoqda.

Mobiuz is one of the leading mobile operators in Uzbekistan, providing high quality 4G LTE and 5G communication and mobile internet services. Mobiuz is committed to innovation and improving customer experience by offering modern solutions and services. Mobiuz aims to be the first to implement innovative solutions to improve connectivity and customer experience. In 2024, the company was the first to commercially launch VoWiFi technology, and in 2023 it was the first to launch VoLTE service as well as ViLTE nationwide. Thanks to continuous investments in technology, the company is constantly expanding the range of services, including the ecosystem of mobile applications.

UZTELECOM

UZTELECOM brendi ostida xizmatlarini taqdim etuvchi "O'zbektelekom" aksiyadorlik kompaniyasi O'zbekiston Respublikasida yetakchi telekommunikatsiya operatori hisoblanadi. Kompaniya o'zining telekommunikatsiya tarmog'i bilan O'zbekiston Respublikasining barcha hududlarini qamrab olgan va 126 mamlakatda 251 ta xalqaro aloqa operatorlari bilan rouming hamkorligini yo'lga qo'ygan.

Uzbektelecom Joint Stock Company, operating under the **UZTELECOM** brand, is the leading telecommunications operator in the Republic of Uzbekistan. The company's extensive telecommunications network spans all regions of Uzbekistan and includes roaming agreements with 251 international telecom operators across 126 countries.

Kompaniya keng ko'lamli xizmatlarni, jumladan, yuqori tezlikdagi Internet, mobil aloqa, interaktiv TV xizmati, mahalliy telefon aloqasi, turli sohalar uchun IT yechimlarni va boshqa telekommunikatsiya xizmatlarini taklif etadi. Kompaniya Frankfurt-Mayn, Moskva va Gonkongda o'z PoP'lari mavjud bo'lib, global telekommunikatsiya operatorlari bilan aloqalarni tezkor tashkil etish imkoniga ega.

UZTELECOM provides a comprehensive range of services, including high-speed internet access, mobile communications, interactive television, local telephony, and industry-specific IT solutions, and other telecommunication offerings. The company also maintains Points of Presence (PoP) in data centers located in Frankfurt am Main, Moscow, and Hong Kong, enabling efficient connections with global telecommunications operators.

ICTWEEK 2024 doirasida ko'rgazma bo'lib o'tdi, unda UZTELECOM ishtirok etib, innovatsion yechimlar hamda telekommunikatsiya xizmatlarining yangi yo'nalishlarini taqdim etdi. UZTELECOM stendi mehmonlari sun'iy intellektni rivojlantirish va videokuzatuv xizmatining ilg'or funksiyalari, interaktiv TV-xizmat, hamda bulutli xizmatlar bilan yaqindan tanishtirdi.

As part of ICTWEEK 2024, UZTELECOM will participate in the exhibition, showcasing its innovative solutions and newly developed telecommunications services. Visitors to the UZTELECOM exhibition stand will have the opportunity to explore the latest developments in artificial intelligence, advanced video surveillance technologies, interactive television services, and cloud-based solutions.

Bugungi kunga qadar Kompaniyaning jamoasi tomonidan respublika bo'ylab tarmoqlarni modernizatsiya qilish bo'yicha muvaffaqiyatli olib borilgan ishlari natijasida "Yil brendi", Ookla kompaniyasining tadqiqotlariga ko'ra 2023-yilning 1-2-choragi bo'yicha "Eng tezkor mobil tarmoq tezligi", "5G ta'minoti uchun nufuzli LEAD Awards" mukofoti, shuningdek "MDH davlatlarining 2023-yildagi mintaqaviy operatori" kabi qator mukofotlarni qo'lga kiritdi.

As a result of the company's dedicated efforts to expand its telecommunications network across the country, UZTELECOM has garnered several prestigious accolades. Among these are the "Brand of the Year" award, recognition as the "Fastest Mobile Network" for the first two quarters of 2023 by Ookla, the LEAD Award for Best 5G Service, and the title of "Regional Operator of the CIS Countries in 2023."

LATVIA PAVILION

The Investment and Development Agency of Latvia (LIAA) is a direct administration institution under the Minister of Economics of Latvia. It aims to boost export and competitiveness of Latvian companies, attract foreign investment, and promote tourism and innovation. At ICT WEEK Uzbekistan 2024, LIAA's Start-up Support Department will participate. LIAA aids in transforming innovative ideas into businesses, raises awareness of the Latvian start-up community abroad, supports start-ups in exhibitions and conferences, and organizes informational and educational events both in Latvia and internationally. It also offers a "start-up visa" for non-EU founders wishing to launch their ideas in Latvia.

Latvian IT Cluster

The Latvian IT Cluster, established in 2007, unites over 80 ICT companies. Its primary objective is to represent and align the collective interests of the ICT sector, driving growth, development, and export potential. By organizing trade missions, knowledge exchange events, and international collaborations, the Cluster strengthens the competitiveness of its members and promotes the Latvian IT industry on a global scale.

BDA

We are one of the largest training centres in Latvia and the Baltic States since 1994, with more than 29 years of professional experience in the industry. We have leading and long-standing cooperation partners in Latvia and internationally. We cooperate with relevant industry partners and associations. Over the years we have gained extensive experience working with global manufacturers, allowing us to provide highly recognized and demanded training with certification.

WHY INVEST IN UZBEKISTAN?

O'zbekistonga investitsiya kiritishda muhim imkoniyatlar mavjud:

1. Siyosiy va iqtisodiy Barqarorlik: Uzbekistonda barqaror siyosiy muhit va o'sib borayotgan iqtisodiy manzara taklif etiladi, bu esa uzoq muddatli investitsiyalar uchun muhimdir.

2. Yosh, Ta'limli Mehnat Kuchi: Aholining 60% dan ko'pini 30 yoshgacha bo'lgan yoshlar tashkil etadi va IT ta'limiga alohida e'tibor qaratilgan. Har yili 25,000 dan ortiq talabalar IT universitetlarini bitirib, dinamik, texnologiyalarga mos mehnat resursini ta'minlaydilar.

3. Hukumatning Qo'llovi: Investorlar ko'plab davlat yordamlaridan foydalanishlari mumkin, jumladan, soliqlar imtiyozlari, soddalashtirilgan reglamentlar va IT kompaniyalari uchun bepul ofis maydonchalari. So'nggi yillarda 500 dan ortiq biznes reglamentlari tugatildi va investitsiyalarga mos muhit yaratildi.

4. Xarajatlarni optimallashtirish: O'zbekistonda elektr energiyasi narxlarini past va mehnat haqqi qulay bo'lganligi sababli, kompaniyalar uchun xarajatlarni optimallashtirish imkonini beradi.

5. Strategik Joylashuv: O'zbekiston Markaziy Osiyoning markazida joylashgan bo'lib, mahalliy va mintaqaviy bozorga, jumladan, HMT (KIS) va Markaziy Osiyodagi 300 milliondan ortiq iste'molchilarga kirishni taklif qiladi.

6. Rivojlanayotgan IT Infratuzilmasi: Mamlakatning IT ekosistemi 205 ta IT markazi bilan rivojlanib bormoqda va IT Park rezidentligi kabi tashabbuslar bepul korporativ soliq va chet el ishchilari uchun ish hujjatlarini talab qilmaslik kabi imtiyozlardan foydalanishni ta'minlaydi. U jahon miqosidagi eng yaxshi outsourcing joylari qatorida baholanmoqda. Kelajakka

7. Viziya: O'zbekistonning "2030 strategiyasi" iqtisodiy o'sishni, IT sektorini kengaytirishni va xorijiy to'g'ridan-to'g'ri investitsiyalarni oshirishni maqsad qilgan. Bu davlatning biznes uchun qulay muhitni yaratishga bo'lgan mo'ljali ko'rsatadi.

Investing in Uzbekistan offers significant opportunities:

1. Political and Economic Stability: Uzbekistan provides a stable political environment and a growing economy, key for long-term investments.

2. Young, Educated Workforce: With 60% of the population under 30 and a strong emphasis on IT education, Uzbekistan offers access to a dynamic, tech-savvy labor pool. Each year, over 25,000 students graduate from IT universities, ensuring a steady supply of talent.

3. Government Support: Investors benefit from extensive government backing, including tax exemptions, simplified regulations, and free office spaces for IT companies. Reforms in the past few years have eliminated over 500 business regulations and introduced a favorable investment climate.

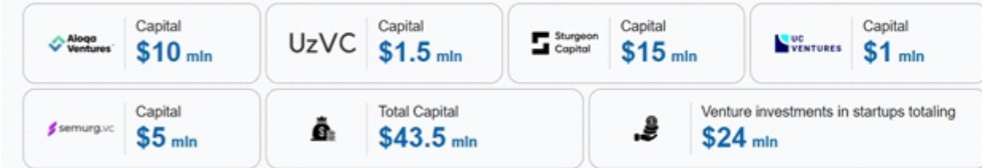

4. Cost Efficiency: Uzbekistan boasts competitive operational costs, such as low electricity prices and affordable wages. This makes it an ideal destination for businesses looking to optimize expenses.

5. Strategic Location: Situated at the heart of Central Asia, Uzbekistan offers access to both local and regional markets, including over 300 million consumers across the CIS and Central Asia.

6. Developing IT Infrastructure: The country's IT ecosystem is thriving, with 205 IT centers and initiatives like IT Park residency, which provides benefits such as zero corporate tax and no foreign employee work permits. It ranks as one of the best outsourcing destinations globally.

7. Vision for the Future: Uzbekistan's "2030 Strategy" aims for significant economic growth, including expanding the IT sector and increasing foreign direct investment. This reflects the government's commitment to fostering a business-friendly environment.

LOCAL VENTURE FUNDS

POOL OF OVER 500 STARTUPS STARTUP MARKET SHARE

Bizning mamlakatimizda ma'lumot texnologiyalari tez rivojlanmoqda va barcha sohalariga joriy etilmoqda.

Natijada, bu yilning o'tgan davrida **raqamli xizmatlar hajmi** 21 trillion so'mni (**1,7 milliard dollar**) oshdi va 43 trillion so'mga (**1,7 milliard dollar**) yetishi kutilmoqda. Ushbu sohaning xizmatlari eksporti **367 million dollarni** tashkil etdi. **IT park rezidentlari soni** 577 taga oshdi va hozirda **2 mingdan ortiqni tashkil etmoqda**. Ularda ishlayotgan **yoshlarning soni 32 mingga** yetdi.

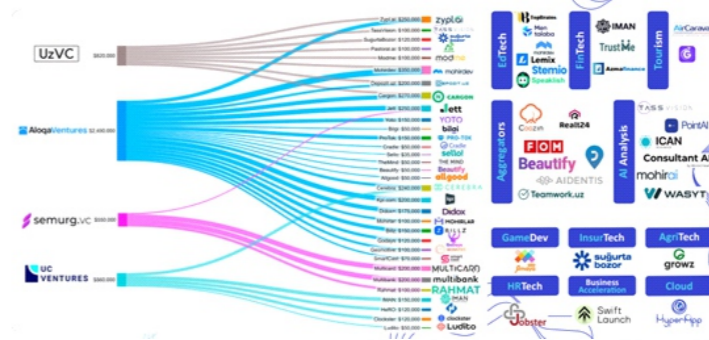

Bu yil sog'liqni saqlash, energiya, transport, ta'lim, qishloq xo'jaligi, suv boshqaruvi, qurilish va boshqa sohalarda **100 dan ortiq raqamlashtirish loyihalari** amalga oshirilmogda.

Information technologies are developing rapidly in our country and are being introduced into all spheres.

As a result, only in the past period of the current year the **volume of digital services** exceeded 21 trillion soums (**\$ 1,7 billion**), and it is expected to reach 43 trillion soums (**\$ 1,7 billion**). The export of services of the sphere amounted to **367 million dollars**. **The number of IT park residents** increased by 577 and now it **exceeds 2 thousand**. The number of **young people** working in them reached **32 thousand**.

This year, more than **100 digitalization projects** are being implemented in healthcare, energy, transport, education, agriculture, water management, construction and others.

Startup ecosystem

Masalan, **"My ID"** va **"UzFace"** echimlari 70 dan ortiq tashkilot, bank, marketplace va to'lov tizimlarida joriy etildi, va **10 million foydalanuvchining biometrik identifikatsiyasini** masofadan amalga oshirish imkoniyati yaratildi. "Uzbekcosmos" esa sun'iy intellekt yordamida 43 mingdan ortiq qonuniy bo'lmagan yerdan foydalanish va ruxsatsiz qurilish holatlarini aniqladi.

Shuningdek, startap ekosistemi rivojlantirish uchun o'tgan iyulda Toshkentda **"Startup Garage"** ochildi. Ushbu platforma allaqachon startaplar va investorlar uchun jozibador markazga aylanmoqda.

For example, **"My ID"** and **"UzFace"** solutions have been implemented in **more than 70** organizations, banks, marketplaces and payment systems, and the possibility of remote biometric identification of **10 million users has been created**. "Uzbekcosmos" with the help of artificial intelligence identified about 43 thousand cases of illegal use of subsoil and unauthorized construction.

For example, in order to stimulate the development of the startup ecosystem, a **"Startup Garage"** was opened in Tashkent in July this year. This platform already serves as a center of attraction for startups and investors.

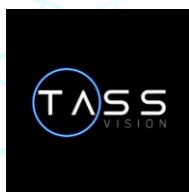

Успешные стартапы в Узбекистане, с участием иностранного капитала

"IMAN" bu halol (islomiy) moliyaviy Superilova.

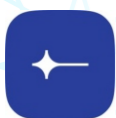

Biz mijozlarga o'z e'tiqodlariga ko'ra axloqiy ravishda sarmoya kiritish va moliyalashtirish imkonini beramiz. Biz, shuningdek, BaaS (Banking-as-a-Service) bo'yicha ixtisoslashganmiz va innovatsion mahsulotlarimizni banklarga muammosiz integratsiya qilish uchun portativ bank arxitekturasini taklif qilamiz, bu esa banklar bilan tarmoq effektini yaratib, moliya sanoatida hamkorlikni rivojlantirishga yordam beradi. Biz hozirda MENAPTni kengaytirish va MENA va Osiyo uchun halol vositaga aylanishi uchun O'zbekistonga e'tibor qaratmoqdamiz.

<https://imaninvest.com/en>

TASS Vision - AI va Machine Vision texnologiyalaridan foydalangan holda oflayn do'konlar uchun do'kon ichidagi tahlil vositasini taqdim etadi. Biz xaridorlar va javonlar tahlilini to'plash uchun do'konlarning mavjud xavfsizlik kameralari bilan bog'lanamiz (yoki o'z AI kameramizni bepul taqdim etamiz). Keyin, biz real vaqt rejimida savdo ko'rsatkichlarini 15% ga oshirish bo'yicha tavsiyalar beramiz.

www.tassvision.ai

PointAI qo'llab-quvvatlash rahbarlari uchun yordam so'rovlarini 80% ga kamaytirishga yordam beradigan dasturiy ta'minot bilan ta'minlaydi.
